WALKING ON GOLF COURSE

As a reminder, walking, while not playing golf, is prohibited on the golf course. Please use the walking trails throughout the community or the walking path in the Enclave Park for your exercising activities and not the golf course. We have so many people playing golf throughout the entire day and we do not want anyone to get hit by a golf ball. Thank you for your help with this matter.

GOLF CARTS IN PARKING LOT

We have seen an increased number of golf carts going into the parking lot and not using the cart path when going to the driving range or #1 on Hollow Creek. For the safety of all please keep golf carts out of the parking lot and please use the cart path when going to the driving range or #1 on Hollow Creek. Thank you.

LABOR DAY TOURNAMENT

The Labor Day Golf Tournament will follow a Shamble format with four person teams using the two best balls of the foursome. The course will be configured in a fun and challenging way so that golfers will "labor" to succeed. The cost per person is \$12 plus regular greens and cart fees. Come join the fun and sign up in the Golf Shop.

RESERVE COURSE WHITE TEE MARKERS

Golfers playing The Reserve Course may have noticed the white tee markers have been placed in different locations on several tee boxes. Some locations will have the holes playing longer than players are accustomed to while other locations will have the holes playing shorter than usual. The adjusted tee locations have been implemented for several reasons...

- ◆ **To maintain the effective playing length of the course (6189 yards).** Prior to implementing the new tee locations, the length of the course had been playing closer to 6000 yards.
- ◆ **Course yardage is the primary basis in determining the USGA Course Rating.** The Course Rating is used in calculating the USGA Slope Rating. The Slope Rating is used to calculate a player's Handicap Index. The player's Handicap Index is then converted to a Course Handicap.
- ◆ **In order to accurately reflect the playing ability (Course Handicap) of golfers playing the white tees,** the placement of the tee markers should be balanced so that the course's effective playing length (6189 yards) is approximately the same from day to day.

SUPERINTENDENT'S CORNER

Newsletter time again and as I sit here writing this issue greens aerification has just been completed on The Reserve course. One constant challenge for us has been the maintenance of our collars on The Reserve course. We maintain a Tiff-eagle collar mowed at approximately 3/8 of an inch. Encroachment of our 419 bermuda into our collar is present in many areas. While the 419 is healthy and presents no real agricultural issues it does create aesthetic and playability issues as it encroaches into the Tiff-eagle. Since we do deem this area as a collar and not part of the greens surface it is important we maintain definition between the putting surface and collar for rule purposes. You cannot mark or lift your ball until it is deemed on the putting surface.

Over the last few months I have answered many questions to why we do not have a collar at Hollow Creek or if we will. While the greens grasses are different (Mini Verde at Hollow Creek) the encroachment issues are the same. There are a few things we have learned that have helped us fight the encroachment so far at Hollow Creek, thus no collar. Lower heights of cut seem to hold back some encroachment and bi-weekly edging with hand picking of the runners have worked well. We got started right from the get go with the edging and have seen good results. We will continue this throughout the growing season and hope this program will prove beneficial over the years.

With the encroachment already an issue at The Reserve and edging not a real viable option we have looked at other options. We recently replaced the collar around the chipping green at the driving range. The new grass is Zorro Zoysia. This is a dense growing, fine leaf textured grass that will serve as an option of replacing the existing collars. We will test the grass over the remainder of this season and next season to see if it holds up to all the cultural practices and provides the necessary level of playability. The density of the grass hopefully will allow it to act as a barrier between the two bermuda's. Check it out and keep an eye on it over the next year.

Just a reminder, please do not use your putter to remove your ball from the cup after putting out. While this may be easier the quality of the edges of the cups suffers and will be noticed by following play. This will help in making sure the cup edges are in the best shape possible on the day you play late in the day. Have a good Labor Day.

See you on the course,
Derek Floyd
Golf Course Superintendent

CELEBRITY WAITER NIGHT

In our last newsletter we recognized those members who helped make Celebrity Waiter Night such a huge success, unfortunately we omitted Gene & Fran Laska from that list. We greatly apologize to the Laskas and thank them for their support.

JULY 4TH CELEBRATION

We wanted to take this opportunity to thank all of those who attended our 4th of July Celebration for your patience during the rain. The Reserve Club is truly blessed with fantastic members and it showed that night.

COUNTRY CLUB CASUAL

Proper clubhouse attire includes shirts with a collar and sleeves and slacks or appropriate length shorts for gentlemen. **We strongly recommend that gentlemen wear pants, not shorts, for indoor club events and dinners, unless it is otherwise stated differently.** Dresses, skirts, slacks or shorts of appropriate length along with sleeved or sleeveless shirts are considered appropriate for ladies. Denim, tank tops, short shorts and swimwear are not appropriate. Jackets are preferred, but optional in the dining room. All gentlemen are asked to remove their hats when seated in all dining areas of the clubhouse including the pub.

AIKEN PERFORMING ARTS UPCOMING EVENTS

October 2nd & 3rd - Music From The Crossroads
